*Apache Server at www.ashevillehumane.org Port 80*

This URL result (404 NOT FOUND) was TRUE from July 7, just after 6-year old Joshua Storther was killed by the pit bull adopted out by the Asheville Humane Society, until we last checked this URL on July 11 at 12:13 AM Central Time.

As of July 11 at 12:13 AM, the Asheville Humane Society has "republished" this page (no doubt "gravely" concerned about legal liability issues) with "revisions" of which DogsBite.org is tracking ALL OF.
