

9-Year U.S. Dog Bite Fatality Chart - 2005 to 2013 By Age Groups

During this 9-year period, 284 Americans suffered death due to dog bite injury. Newborns, infants and toddlers, ages 0 to 2 years old, made up 30% (86) of all fatal dog bite victims, twice the number of the next two highest age groups.

DogsBite.org

DogsBite.org is a national dog bite victims' group dedicated to reducing serious dog attacks. Through our work, we hope to protect both people and pets from future attacks. Our website contains a wide collection of data to help policymakers and citizens learn about dangerous dogs. Our research focuses on pit bull type dogs. Due to selective breeding practices that emphasize aggression and tenacity, this class of dogs negatively impacts communities the most.
