A sincere thank you to everyone who has emailed, messaged, called, or donated. I currently do not have use of either hand. However they were able to re-attach the finger on my left hand which was severed. I will go in a week from today for major surgery on my right arm as most of the bones are totally shattered. I will probably not be on social media much, as I'm unable to type. And we all know how accurate voice to text can be. I'm hanging in there and I'm really happy to be in my own bed and home with Kevin, Bubba, turtle and the birds.

Jackie [Jacqueline Bedsaul Johnson](#) was injured very badly in an accident. She is the sweet lady that cared so much for Shrimpy and TJ the 2 parrots I had for 28 years. She was the best friend a bird could have and was always so kind and loving to these birds. She loves all animals and is the manager of Parrot Gardens at [Best Friends Animal Society](#) in Kanab Utah. My heart and prayers go out to Jackie and her family! Get well soon Jackie.

[Jacqueline Bedsaul Johnson](#) is an amazing advocate for all animals, and the manager of the parrot garden at Best Friends. I was so impressed after meeting her - she cares so passionately for her charges. She recently suffered massive injuries that will be preventing her from working for quite some time. Even a tiny bit will help her get back on her feet and working with animals again. They need her and so do we.
