

My Name Is:
***NICHOLAS**

I am a neutered white & brown amer bulldog. My friends at the shelter think I am about 4 years old. I came to the shelter on 5/13/2015.

Nicholas has had a rough beginning in this world. But it hasn't kept this sweet boy down. He loves his humans and is happy just laying on the couch or lounging on your bed. He recently has been in foster care and his parents report that he is a lovebug. He loves to ride in the car, walks great on a leash and plays with toys all the time. Nicholas is kid friendly and would be happy with a dog savvy cat in his home. He would like to be the only K9 baby in the house. Stop by and meet this sweet boy today.

He loves his humans and is happy just laying on the couch or lounging on your bed. He recently has been in foster care and his parents report that he is a lovebug. He loves to ride in the car, walks great on a leash and plays with toys all the time. Nicholas is kid friendly and would be happy with a dog savvy cat in his home. He would like to be the only K9 baby in the house. Stop by and meet this sweet boy today.</p>
M15-300468	07-Jul-2015	INTERPARTY	<p>██████████ is going to take him into foster on 7/13/15. Petaluma Animal Services may be interested in him. It depends on their inventory once he has been in foster with ██████████ for a bit. MA</p>
M15-300603	08-Jul-2015	BEHAVIOR	<p>Volunteer, ██████████, was concerned on 7/5/15 that this dog was playing tug with the leash and not releasing it. I took him out of his kennel today, 7/8/15, with Volunteer ██████████. We observed that he did grab the leash and play tug when bored. We worked on object exchanges, "out" and "take it" with a rope toy. After about 5 minutes of doing this he no longer was interested in the leash. ██████████ is going to be taking him back into foster on 7/13/15 where she will continue this work.</p>

Memo #	Memo Date	Memo Type	Memo Details
M15-303670	05-Aug-2015	INTERPARTY	<p>with him. MA</p> <p>8/5/15-This dog came back from foster home due to changing foster homes and went immediately back out. Basically just a transfer. 570</p>

Both dogs appeared to have relaxed body language and were a bit independent but co-existing.</p> <p>Ok with: male dog</p>

Memo #	Memo Date	Memo Type	Memo Details
			<p>Play style: Calm and relaxed Ok with Cats? Yes, we recommend a dog saavy cat home with proper on-leash introduction Ok with Other Dogs? Yes, calm</p> <p>DO NOT RECOMMEND TO TAKE TO DOG PARKS</p>
M15-308748	22-Sep-2015	BEHAVIOR	<p>9/15/15- [REDACTED] (this dog's foster) was taking Nicholas for a walk in her neighborhood and she was distracted while picking up poop. All of a sudden Nicholas pulled on the leash towards another dog and the leash came off. He bite the other dog in two places leaving bruises but no punctures. 570</p>
M15-308867	23-Sep-2015	INTERPARTY	<p>Brian Whipple has approved the adoption of this dog to [REDACTED] for \$25. She is supposed to come and adopt on 9/23 at 12:30 pm. 570</p>
M15-309302	27-Sep-2015	BEHAVIOR	<p>9/24/15-I discussed the incident that happened with Nicholas yesterday and the child with Brian Whipple and James Dress in our Behavior Meeting. We all believe that Nicholas needs to be euthanized due to his behavior. I will contact his foster and make arrangements. 570</p>
M15-309300	27-Sep-2015	BEHAVIOR	<p>9/23/15-Nicholas' potential adopters were here to complete the adoption paperwork but they didn't have landlord approval yet. While they were here I observed Nicholas (A321634) stare & growl at the adopters child (that he had gotten along with famously according to the foster, [REDACTED] previously). Then I asked the child to stand up (she had been sitting) and I got down next to and between them and waited a minute and the dog stared and tried to lunge towards her face and took my right arm and hit his face away from her. 570</p>
M15-310280	07-Oct-2015	INTERPARTY	<p>Received proof of 9/28/15 euthanasia performed on Nicholas by San Marin Animal Hospital; email below. Stored euth authorization and vet letter in animal's photos for reference. 555</p> <p>From: San Marin Pet Hospital [mailto:sanmarinanimalhospital@gmail.com] Sent: Tuesday, October 06, 2015 4:45 PM To: Tammy Geronimo <Tammy.Geronimo@sonoma-county.org> Subject: Nicholas</p> <p>Proof of Death for Nicholas.</p> <p>Thank you, Jessie SMAH</p>

Veterinary Exam

H: Stray exam. Check skin and ears.

E: Signalment - BAR, strong. Does not like ears being examined.

BCS - 5.5/9

MM/CRT - N - pink/~1s

Hydration - N

Eyes - N - Mild conjunctival inflammation and watery discharge, no evidence of associated corneal irritation. No change.

Ears - A - Mod chronic inflammation and light brown discharge bilaterally. More comfortable with otoscopic exam today.

Left ear canal appears much improved with minimal inflammation only. Right canal still has moderate inflammation and brown discharge. TMs appear intact. Dry scaley skin noted on both pinnae tips, early scab formation, no change.

Nares - N

Mouth - N - moderate tartar, minimal gingivitis.

Lymph Nodes - N

Cardiovascular - N - HR~ 96 bpm, Rhythm reg, no murmur

Lower Respiratory Tract - N - RR WNL, lung sounds clear

Upper Respiratory Tract - N - No cough on tracheal squeeze, sounds clear

Abdo - N - Tense but not painful, no palp mass/organomegally/free fluid

Genitourinary - N - MN

Musculoskeletal - N - Ambulatory all 4 limbs, no palpable crepitus/instability

Skin - N - No evidence of ectoparasites seen. Mod inflammation noted about ventral muzzle appears improved. Central abdomen, groin and axillae inflammation and diffuse miliary dermatitis improved, mild moist inflammation of all 4 paws ventrally still present. Dorsal seborrhea and malassezia-like odor improved.

Other -

A: Bilateral otitis externa with early scab-like lesions to both pinnae tips - r/o infectious, allergy assoc, pre-cancerous lesions, sun burn, other. Appears to be responding well to current treatment.

Mod generalised miliary dermatitis and pyoderma, ventrally predominantly. R/o allergy associ, ectop assoc, other Appears to be responding well to current treatment.

P: Continue all meds as currently prescribed, no further dx/tx at this time.

Recheck exam in 7, 21 days, or sooner if further CS arise

Continue HA diet only 3 months minimum treat trial.

Continue to monitor both ear tips carefully, if lesions do not improve surgical biopsy may be needed to r/o precancerous lesions.
