

My Name Is:
***RAINBOW**

I am a spayed blue & white pit bull \ mix. My friends at the shelter think I am about 2 years and 4 months old. I came to the shelter on 5/16/2015.

Looking for a ray of sunshine? Well look no further than Rainbow. Her smile says it all and you won't be disappointed. She loves her humans so if you are up for cuddles, walks, or playing, she will be overjoyed. Rainbow is a young dog who could use some training. Signing her up for an obedience class would be a great way to learn new things and develop a bond. Rainbow is kid-friendly, dog-social, and fine with a dog-savvy cat. Come meet the happiest girl on earth today!

I WILL BE AT THE SONOMA COUNTY FAIR ON FRIDAY AUGUST 7TH. COME SEE ME THERE!

(IF I DON'T GET ADOPTED ON THE 7TH, I WILL BE THERE ON AUGUST 8TH AS WELL.)

M15-295316	15-May-2015	OWNER INFO	05/15/15 Owner called and advised that dog started nipping his son, has not broken skin. Advised that since it is a safety issue he can bring the dog in asap. Advised him that there would be a \$50 surrender fee (not \$100) since dog came from us. -jcc
M15-295547	19-May-2015	BEHAVIOR	Spoke with former owner about "nipping" reported and circumstances surrounding the event. He said that the dog was "mouthy and playing" but his son was scared of the dog and he felt that his son would always be scared of the dog once he was afraid. He said that the dog was a "lover and needs attention and training" and he didn't have time to do it. He said the dog is not aggressive. His son is 13 years old and not very "active" and he had hope that the dog would make him more active. MA

M15-301433	16-Jul-2015	BEHAVIOR	In kennels yesterday, a member of public was going along kennels talking to each dog in a friendly voice. She pointed to

Memo #	Memo Date	Memo Type	Memo Details
			Rainbow and said "that one doesnt like me very much." I stood in front of Rainbow's kennel with her and observed dog barking aggressively, body stiff and tail straight up in the air. The bark sounded distinctly different from when the dog barks to me for attention. 564
M15-302224	22-Jul-2015	BEHAVIOR	7/18/15 Eyes dilated , jumps, tries to get dogs in other kennels, aggressive towards public. Owner surrender from May for nipping at owner's son. Emailed Brian and Megan.-518
M15-302632	25-Jul-2015	BEHAVIOR	7/25/15 I walked through the kennels this morning, out of uniform, and Rainbow's eyes were dilated and she was barking at me.-518
M15-302736	26-Jul-2015	BEHAVIOR	7/26/15-The dog was laying down when I approached but she began wagging her tail when I made eye contact with her. She sit up continuing to wag her tail, gave me a submissive paw when I presented my hand and then turned sideways to solicit petting. She lowered her head and had soft eyes. 570
M15-302912	28-Jul-2015	BEHAVIOR	07/28/15 Adopter's mother called to advise they would be returning Rainbow, as she had nipped an adult friend of her son's after she was given a raw hide. mmp
M15-303335	01-Aug-2015	INTERPARTY	08/01/15 [REDACTED] called - her family looked at Rainbow today. She asked more info about previous returns, so I told her all the info I had about the adoptions and returns. She will come in Tuesday 8/4 to visit Rainbow. mmp
M15-305320	20-Aug-2015	ACTIVITY	8/20/15 - Adopter [REDACTED] returned *Rainbow today. She was involved in a bite on 8/15/15, and said last night that she tried to eat his cat, and that was the last straw, so he decided to bring her back. He brought in QT paperwork from Marin County Animal Services indicating a QT was in effect. Incident happened at Throckmorton Avenue in Mill Valley. He said that they had been at a park, and Rainbow had been around other dogs and people. He said that somebody went to pet Rainbow when she jumped up and bit her arm, breaking skin. cbs
M15-305680	24-Aug-2015	INTERPARTY	On 8/20/15 I telephoned [REDACTED] at several places in response to a email that was forward to me about problems that he was having with Rainbow. When I saw Rainbow walk through the multi-purpose room I asked if the owner was still here because I wanted to ask him for first hand information. Janis said he was at the front counter so I went up front and talked to him while Chelsea was inputing information in the computer. He said that the bite happened when they were all hanging out in a circle and Rainbow was off leash running around amongst a large group of people that knew and didn't know. He said that she jumped up when she was greeting and grabbed the ladies arm. He volunteered that he thought she was mouthing more than biting but that the lady had "thin skin like mine that bruises easily." I then asked about the cat issues. He said that she was gradually getting worse with the cat and that at first she was really good. Then the previous night his wife was standing behind the couch with the cat in her arms and Rainbow was on the couch. Rainbow jumped up over the back of the couch towards the cat and his wife threw the cat sideways. 570
