Laura Lei & Declan were found running stray in the streets. After they settled in at our Escondido Campus, we moved them to separate kennels to see if we'd be able to adopt them out separately (it's often very challenging to find an adopter willing to take in 2 large adult dogs), but these BFFs said **NO WAY!** They cried for one another all day while apart and it just broke our hearts. We put them back together and they were elated to see one another again! So, Laura Lei & Declan have spoken and we're doing our best to find them the home they need and deserve... together.

If you happen to know an extra compassionate person willing to give these lovebugs a place to call home, please visit our Escondido Campus at 3450 E. Valley Parkway!

A giant thank you to our Behavior Center volunteers!! The canine adventure program allows dogs to go into the world to be a 'normal dog' while staying in the shelter. Chase loves every bit of his adventure days - the car ride is his favorite! Inquire about this study boy through our San Diego Campus >> <http://ow.ly/4ndbt0>
